

The nature's bounty – Hunan Citrus

Hunan, with its perfect geography, climate and soil for citrus growing, is the largest citrus fruit plantation base of China. Various types of mandarin, tangerine, orange, pomelo, grapefruit and lemon are cultivated in this fertile and clean mountain region with great taste and premier quality.

Citrus fruits are well-known rich in a group of nutritional and medicinal compound called bioflavonoids that are particularly benefit to cardiovascular and immunity health. Located in Hunan, ACE Biotechnology is dedicated in developing and manufacturing a full range of citrus bioflavonoid ingredients.
